

AI-capable and compliant — in a single day.

Since February 2025, training your staff in AI is a **legal requirement**. In one day I make your team genuinely capable — with an **audit-proof certificate of competence** that holds up under liability and supervision. Not an alibi certificate, but real confidence in daily work.

PROVIDER	FORMAT	CONTACT	UPDATED
Musketier Software	Digital · remote	kontakt@musketier.net	2026

Why now: Article 4 EU AI Act obliges every company to ensure its staff's AI literacy — the penalty framework and national authorities have applied **since August 2025**. An 8-euro click certificate only meets the formality; in a damage case (liability, data protection) it offers no protection. You get both: genuine capability **and** the documented proof — in one day, with no effort on your side.

THE OUTCOME

What your staff will be able to do

- ✓ use AI tools **safely & productively** in daily work
- ✓ place legal duties & limits (Art. 4/50, GDPR) in context
- ✓ spot the real risks: hallucination, data leakage, liability
- ✓ write effective prompts and review results critically
- ✓ apply your company's rules with confidence

THE DAY AT A GLANCE

Foundations

Legal framework

Risks

Prompt lab

Data protection

Your policy

Digital & live · approx. 7 hrs · up to 12 participants · $\frac{2}{3}$ hands-on, no lecture-style

YOU RECEIVE & KEEP

- › **Certificate of competence** per person + audit-proof Art. 4 documentation
- › Template for your **AI usage policy** (developed together)
- › 2 short **refreshers** (week 2 + 4) against forgetting

INVESTMENT

€890 net **DIGITAL FULL DAY**

Flat rate, up to 12 participants — all materials & certificates included.

Additional participants (from 13)	€45/person
In-depth afternoon for leadership	+€290
On-site delivery (on request)	+€390 & travel

Book a free intro call.

20 minutes, no obligation — we clarify your needs and a preferred date (usually within 2 weeks).

Audit-ready: you receive proof that holds up before authorities and in a liability case.

Law + technology from one hand

Not just slides — documented proof that holds up when it matters.

Vendor-neutral & up to date

2026 state (reasoning models, tools, web search) — no outdated half-truths.

Honest, not alibi

Real capability for your people, not a certificate that's worthless in an emergency.

All prices net plus VAT. Subject to change. Does not constitute legal or tax advice; the binding legal assessment remains with your lawyers.
